

Windmill

Inventory

2 big orange wheels

6 little orange wheels

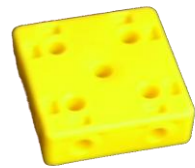

4 wooden wheels

1 hub wheel

1 green block

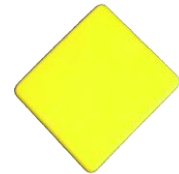

1 yellow block

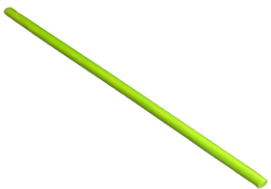

2 orange connectors

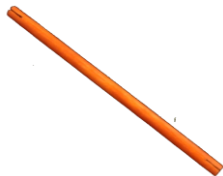

5 orange end caps

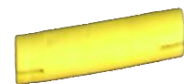

1 yellow square

2 green sticks

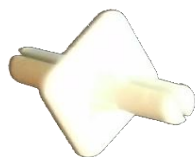

4 red sticks

6 yellow sticks

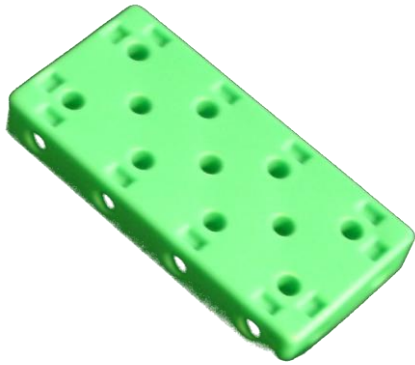

4 blue sticks

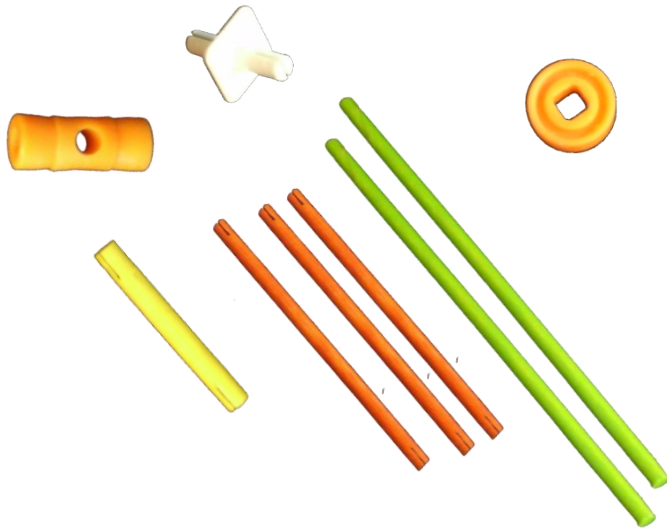

4 white connectors

Base

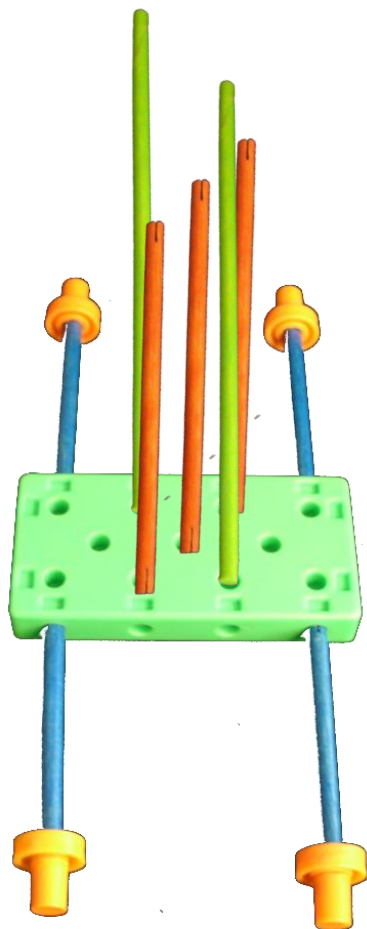

1. **Select** the green block, four blue sticks, four small orange wheels, and four orange end caps.
2. **Insert** each of the four blue sticks into a hole on the outer ends of the thinner sides of the green block.
3. **Slide** one orange connector on the end of each of blue stick.
4. **Top off** each blue stick with an orange end piece.

Central Support

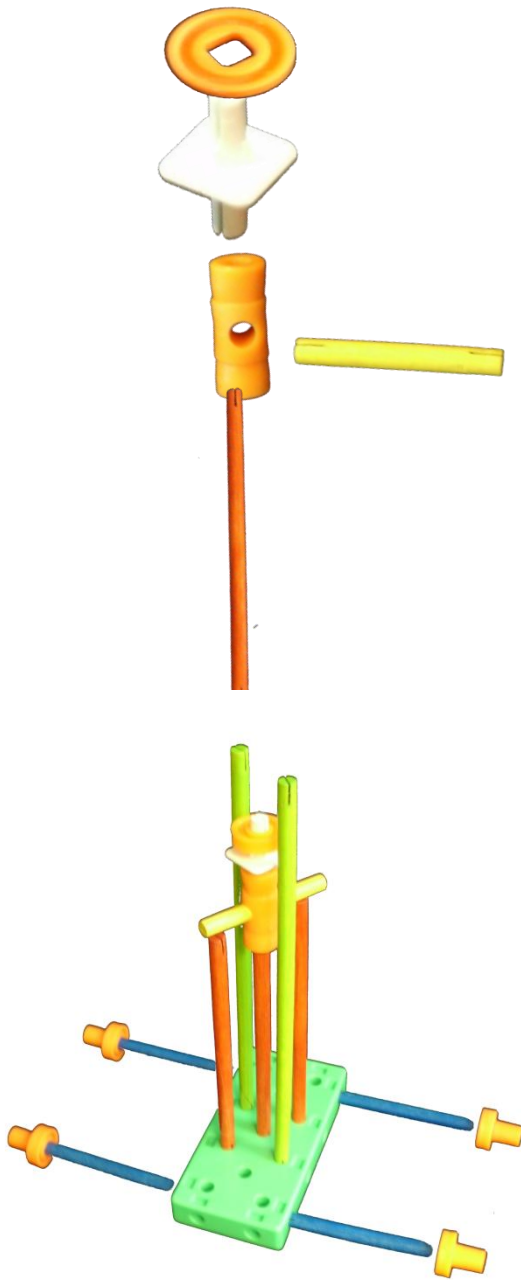

1. **Select** the green block, one white connector, one orange wheel, one orange connector, one yellow sticks, two green sticks, and three red sticks.

2. **Insert** the green and red sticks into the five center holes of the base, as shown to the left.

Central Support Continued

3. **Place** the little orange wheel on end of white connector, and insert other end into orange connector.

4. **Fit** other end of orange connector to center red stick. Insert the yellow stick into opening in the orange connector.

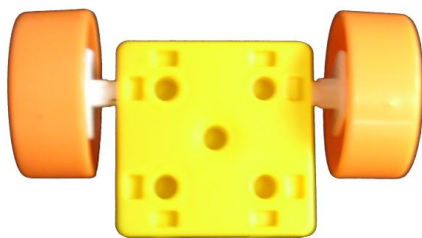

The Middle Connector

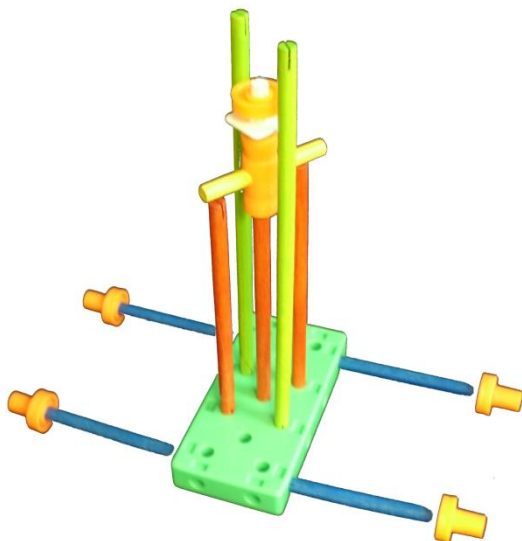

1. **Select** the yellow block, two white connectors, two orange wheels, and red stick.

2. **Insert** each orange wheel on each white connector.

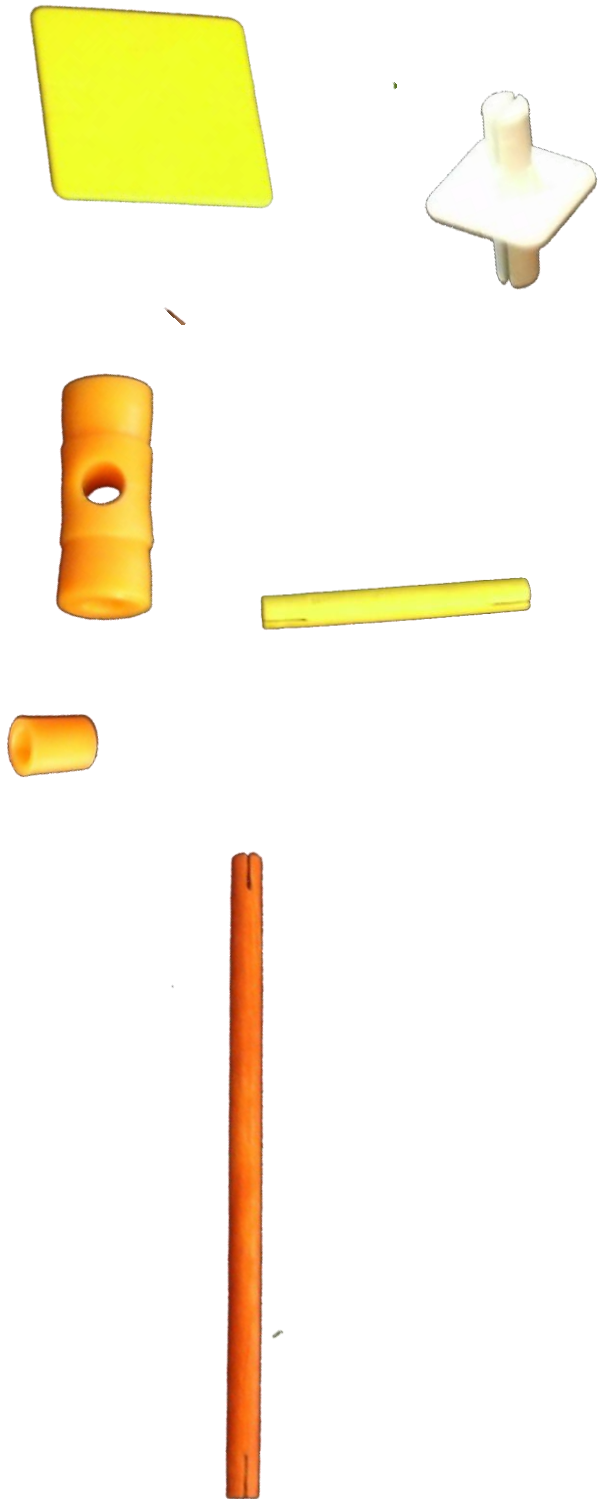

3. **Insert** the white connectors on opposite sides of the yellow block.

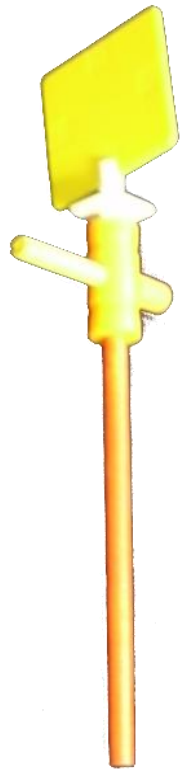

4. **Place** middle connector on central support so wheels are parallel to blue sticks of base.

Upper Tower

1. **Select** the red stick, orange connector, white connector, yellow stick, orange end cap, and yellow square.
2. **Insert** the red stick into the bottom of the orange connector.
3. **Insert** the white connector into the top of the orange connector.

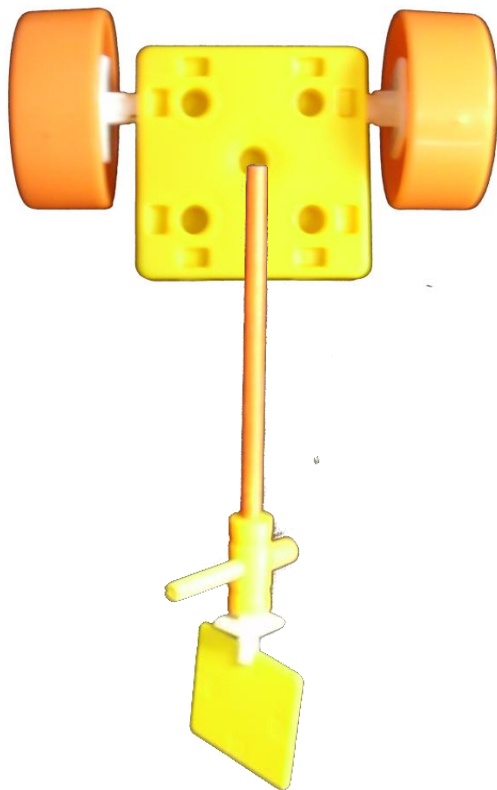

Upper Tower Continued

4. **Insert** the yellow stick through the side hole of the orange connector.

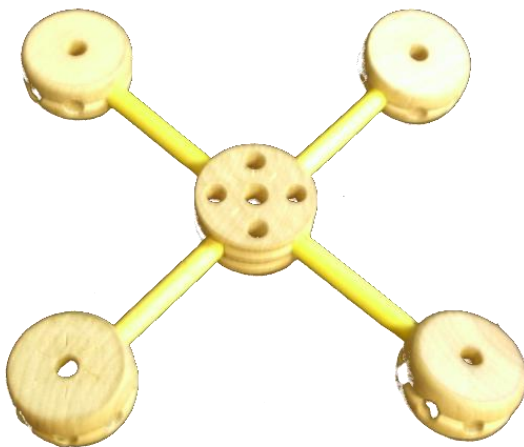

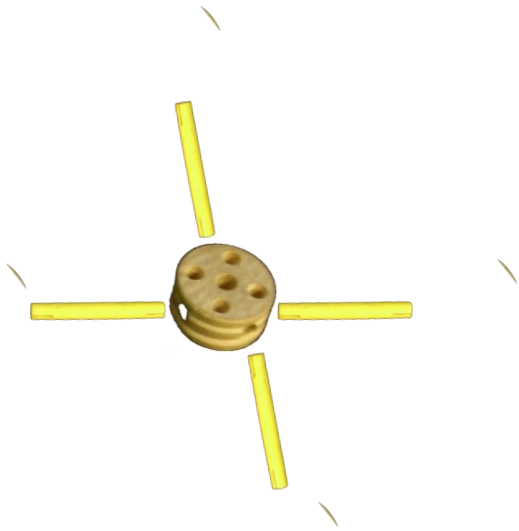

5. **Place** the orange end cap on to one end of the yellow stick.

6. **Fit** the yellow square to the top of the white connector.

7. **Insert** the upper tower into the middle hole of the yellow block of the middle connector.

The Windmill Blades

1. **Select** the hub wheel, four yellow sticks, and four wooden wheels.
2. **Insert** a yellow stick into each of the four holes on the edge of the hub wheel.
3. **Place** a wooden wheel on the end of each stick.
4. **Remove** orange end cap from upper tower.
5. **Slide** center of hub wheel onto yellow stick of upper tower and replace orange end cap.

The Completed Windmill
